Opening the Doors to Educational Exchange: The Baden-Württemberg (Germany) Model

1. *Introduction: What is Baden-Württemberg?*

- Not many natural resources – capital lies in innovations, inventions, know-how, education
- “If we don’t have it, we invent it.”
- A high-tech region & the number one region in education

2. *Baden-Württemberg State-to-State Agreements:*

- US (CA, CT, MA, NC, OR); Ontario; South Australia
- Resident Directors: coordinating role in Germany for all institutions
- All institutions of higher education can participate

3. *Bilateral Exchanges: the Tübingen Example*

- Exchanges: 160 agreements in 45 countries
- 300 Outgoings per year/300 Incomings per year
- 560 Erasmus Agreements: 400 Outgoings; 340 Incomings per year

4. *What Makes Baden-Württemberg Different from Other German Regions?*

- **US-BW Seminar** since 1982
- South Africa-BW Seminar and "Worldwide Seminar"
- Faculty Partnership Conferences
- Administrative Staff Exchanges

5. *Tübingen as an Example:*

- Tübingen Family Meeting since 1991
- International Language Programs: Language and Culture Classes during semester, Orientation and Preparatory Programs for exchange students
- Short Term Programs: Israel, South Africa, Oregon (SIP)

6. *Baden-Württemberg – Scholarship:*

- Political will is to promote our state in whichever way possible and make it attractive to the most sought-after students
- Budget: € 4,4 million; individual scholarship amount € 400 - 1,200
- Only open to students enrolled at either a BW institution of higher education, or to students enrolled at one of BWs partner institutions (world-wide)

7. *Summary: It all boils down to building (and maintaining!) networks*
