Calendar and Dates

- Official calendar is the Islamic (Hijrah) lunar calendar
- Hijrah refers to the migration of Mohammad and his companions from Makkah (or Mecca) to Medina in AD 622
- AH stands for Anno Hijrah (also commonly spelled *Hegira*)

Date Conversion

- In general, you can convert the Islamic year to the Gregorian year by adding 579 to the Islamic year
- $١٤٢٥ (1425) + 579 = 2004$
- This is not always exact because of the difference in days between the lunar and solar year
- Or use a date converter:
