FPD — So What Do I Do With These?

- Most first professional degrees are first-cycle degrees
- These could be used for undergraduate transfer credits
- Consider these as first professional degrees
- For unified cycle programs:
 - It is possible to consider such programs as undergraduate degrees with graduate-level credit
 - For FPDIL in Italy: consider the last 60 CFU as graduate-level credit

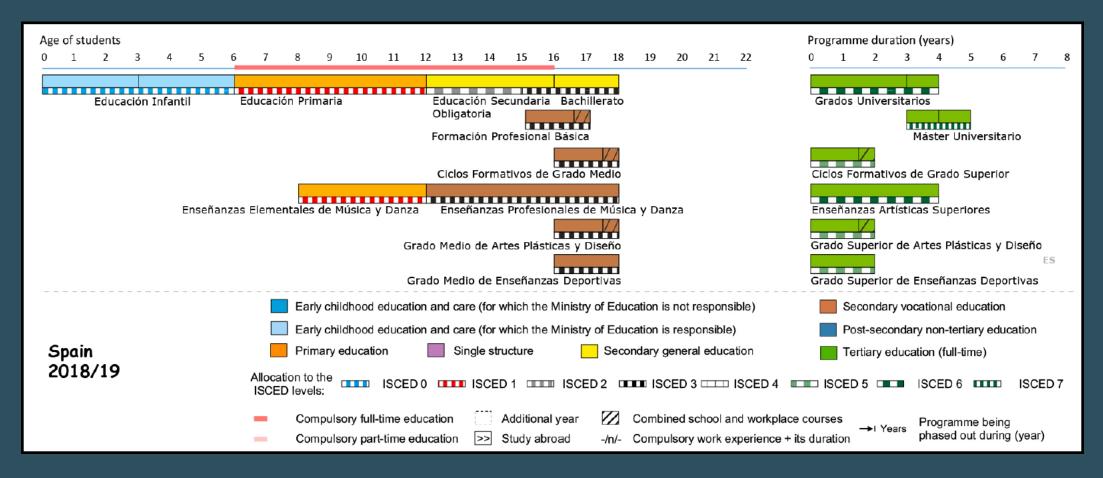

Degrees Outside the Normal Education System

Spain, Italy, France

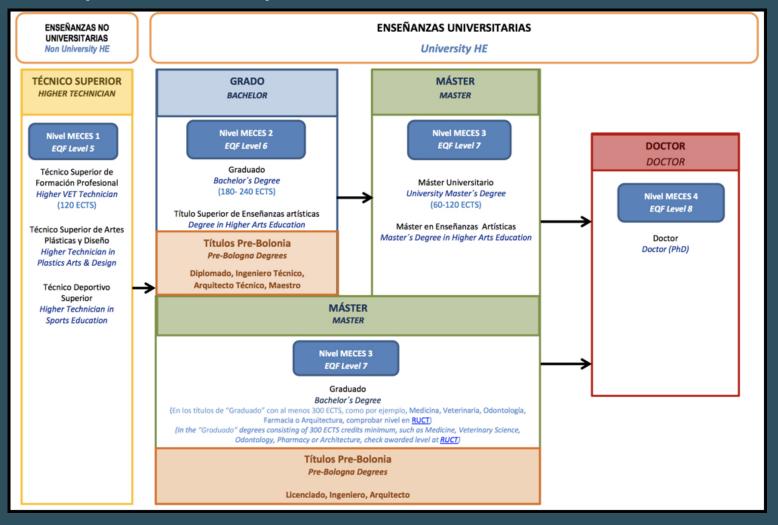

Source: https://eacea.ec.europa.eu/national-policies/eurydice/content/spain_en

- University specific admission/credit standards
- Not allowed to use official degree terminology
- RUCT entry possible*
- Not usually valid for Spanish & EU government employment

CEGEP – Diplôme d'Etudes Collegiales

Quebec

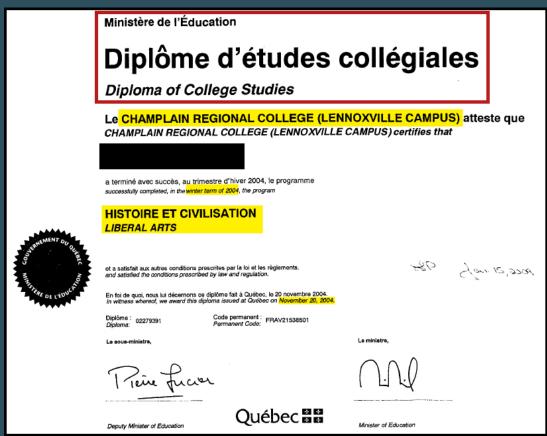

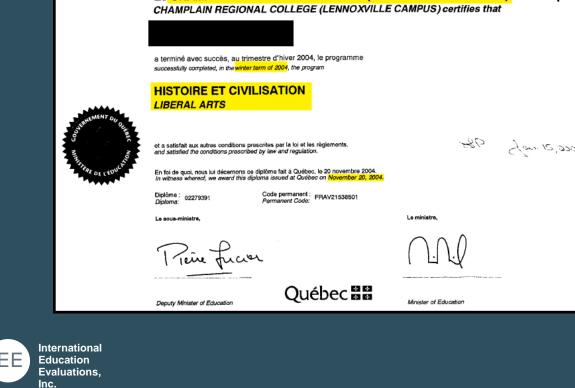

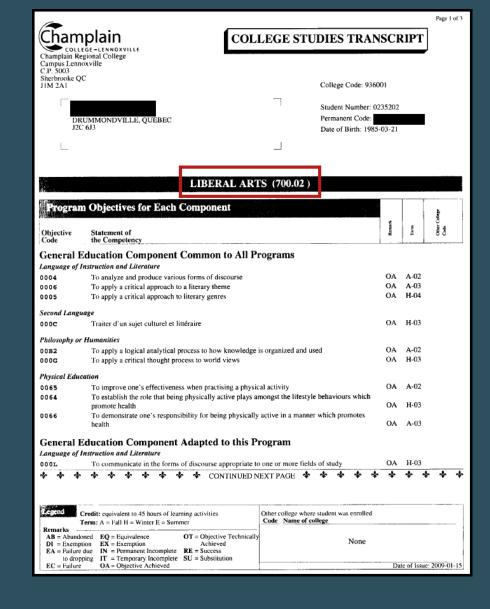

- CEGEP = Collège d'enseignement général et professionnel
- 2- to 3-year pre-university program needed to enter higher education institutions in Québec
- Leads to Diplôme d'études collégiales (Diploma of College Studies)
- Requires Diplôme d'études secondaires or Secondary School Diploma for entrance

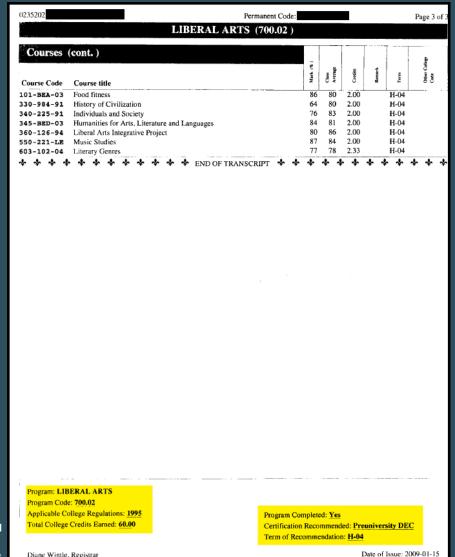

International Education Date of Issue: 2009-01-15 Diane Wintle, Registrar

CHAMPLAIN REGIONAL COLLEGE LENNOXVILLE, QUEBEC

TRANSCRIPT KEY

Champlain Regional College is part of the network of public colleges known as Collèges d'Enseignement Général et Professionnel (C.E.G.E.P.s) which are accredited by the Quebec Ministry of Education to offer both general and career-oriented programs of

Quebec School System

A career-oriented program is usually of three years duration and leads directly to the job market.

A pre-university collegial program is usually two years in length, and typically consists of 26-32 courses (from 50.6 to 58.6 credits). A CEGEP diploma is a prerequisite for all Quebec students who wish to continue their studies at a Quebec university. Most under-graduate university degree programs in the province operate on the semester system and require three years for completion. Thus, a Quebec student, having attained a Provincial High School Leaving Certificate, usually upon successful completion of eleven years of school and provincial examinations, will spend five years in post secondary education (two years at the C.E.G.E.P. level and three years in a university) for a total of sixteen years of schooling, before qualifying for a baccalaureate

The two collegial years are usually equated with one or two years at a junior college program in the U.S., depending on the nature of the university program to which application is made

College Studies Transcript

Each semester a College Studies Transcript (Bulletin Cumulatif, or BCU) is issued to each student. Transcripts issued since Winter 2001 are divided into three segments: the first part indicates what objectives, or competencies, have been achieved as indicated by the Remark OA (Objective Achieved) or OT (Objective Technically Achieved). This section is categorized by program component, e.g. General Education Component Common to All Programs, rather than by semester. NB: Only those Program Components which have been defined in terms of objectives are listed in this area. Many programs have not yet been redefined in this way, thus objectives may not appear on the transcript except for those within General Education.

The second part of the Transcript includes the results of the two required exit examinations - the Comprehensive Assessment and Ministerial Examination in English (or French). These are noted as Pass (RE) or Fail (EC).

The third, more traditional, section of the Transcript lists the courses attempted, by semester, along with the mark obtained, the class average, the credits attained, and sometimes a remark, such as EC, failure.

Each course number begins with a three-digit discipline code, then a three-digit course code and finally a two-digit code for year or hours/week or college name. The CEGEP system operates on a semester basis and all courses are of one semester (15 weeks) duration. "Semesters" are coded as "A" for Autumn, "E" for Summer, "H" for Winter. "Credits" reflects the course credits granted based on class/lab/homework hours per week. Credits are derived by totalling the number of class, lab, homework hours per week and dividing by three. Although most courses meet for 3 hours per week, certain courses, such as those which include laboratories, meet for four to six hours each week. The exact number of class and laboratory hours per week can be noted by referring to the ponderation numbers found in parentheses to the right of each course description in the Champlain College calendar, in the following sequence:

e.g. General Chemistry (3-2-3)

(class hours/week - laboratory hours/week - homework hours/week)

The number of credits, therefore, for General Chemistry is: 3 + 2 + 3 = 8 ÷ 3 = 2.6 credits

"Completed Credits" noted at the bottom of the transcript sums the total credits earned to date.

Grading System at Champlain - Lennoxville

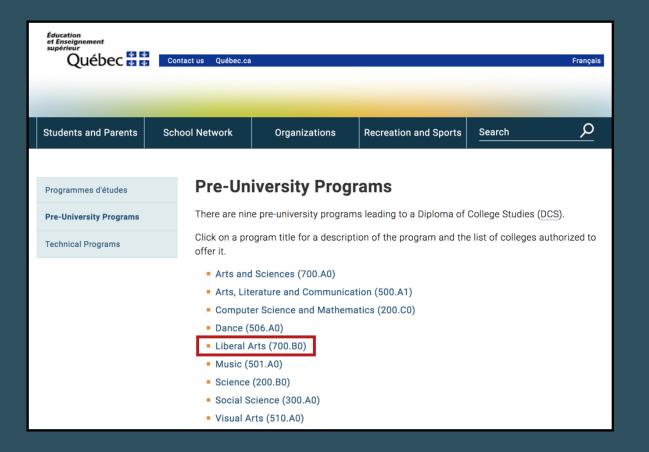

Passing Grade: 60-100% Failing Grade: 0-59%

- 85 and above (Excellent) 75 - 84 (Very Good) 65 - 74 (Good)
- 60 64 (Pass) 59 and below (Failure) - Failures remain on a student's record even when a failed

course is re-taken and passed.

IEE evaluated my degree I obtained in the Netherlands in 2004. They were quick in their email response answering my questions and their work was ready in the time period that was promised.

The evaluation was also accepted by NCDPI to get my NC teaching license. Would use them again!
